East County Large Animal Practice

PROCEDURE: Pre-register by emailing chipyourhorse@gmail.com. You
will be contacted and given a time slot

Walk-ins will be allowed on a first come first served basis

WHY MICROCHIP YOUR HORSE?

For easy identification of your horse if you are separated during an emergency evacuation.

The microchip:

- is a safe, permanent transponder that is injected into the horse's upper neck on the left side.
- assigns a code to your horse which you register with an online data base
- can be read with a handheld scanning device that reveals the code and identifies the horse's owner.

We will also have fire safety and evacuation planning information
